- **Soft Skills**: Leadership, Creativity, Adaptibility, Time Management, Communication
- **Miscellaneous**: Responsive Web Design, Web Scraping, UI/UX Design

PROJECTS

- **Personal Portfolio (HTML/CSS/JavaScript)** : Designed and developed a personal portfolio website to showcase projects and skills using HTML, CSS, and JavaScript. The website features a clean, user-friendly interface with sections for projects, experience, and contact information including responsive design for cross-device compatibility,

  LIVE DEMO: https://saonisha.github.io/PORTFOLIO/

- **Simon Says Game (HTML/CSS/JavaScript)** : Developed an interactive memory game inspired by the classic Simon electronic game using HTML, CSS, and JavaScript. The game challenges players to replicate increasingly complex sequences of colors and sounds. Implemented dynamic difficulty progression, intuitive user interface, and integrated audio elements. Utilized event handling and DOM manipulation to create an engaging user experience.
